Swimming Victoria	<p>Jason Hellwig jason.hellwig@vic.swimming.org.au https://vic.swimming.org.au/</p>	<p>Swimming Victoria is the governing state sporting association for swimming in Victoria. Established in 1893, Swimming Victoria is a not-for-profit organisation governed by a voluntary Board of Directors. Representing the interests of approximately 140 swimming clubs and over 11,500 members, our association provides services and support to registered clubs and members as well as many partner organisations and their members in the aquatic and sporting industry.</p>	<p>Swimming Victoria generates its revenue through sponsorships, government grants, membership and events. Income and funding is re-invested back into the sport for special projects, development squads, activities and education, with direct benefits to members enhancing swimming experiences and opportunities.</p>	
Australia Swimming Coaches and Teachers Association (ASCTA) 	<p>Brendon Ward https://www.ascta.com/ 0427 308 220 brendon@ascta.com</p>	<p>We are the home for Coaches, Teachers and Swim Schools. A place where they belong, connect with others, advance their careers and feel empowered. We are a voice for Coaches, Teachers and Swim Schools. We provide valuable resources and opportunities to learn, network and collaborate.</p>	<p>Swim Teacher Courses Water Safety Training Advocacy</p>	
Solar, Pool Blankets and Heating				
Sunbather 	<p>Chris Clarke M:0408615597 chris@sunbather.com.au www.sunbather.com.au</p>	<p>Sunbather manufactures, supplies and installs domestic and commercial Solar Pool Heating in 2 forms, the traditional Flexible Strip Collector to maximise roof space, and their Rigid Panel System, which is the only Australian made rigid panel on the market. They also supply and install Australian made Rheem Heat Pumps and Gas Heaters.</p> <p>They also manufacture, supply and install their own pool blankets and rollers for both the domestic and commercial market. Sunbather offer multiple options on roller setups from their standard mobile rollers to wall mounted, underseat, ground mounted and underground rollers. These are either manual, motorised or driven by their Aqua Valet winch system.</p> <p>Sunbather also offer a range of services which include periodical and break down servicing of all blanket, roller and solar heating installations.</p>	<p>Pool Heating Pool Blankets and Rollers Solar</p>	<p>10% off commercial servicing</p>
Heliocol Solar 	<p>Peter Jamieson 03 9708 6656 peter@heliocolvic.com www.heliocol.com.au</p>	<p>Heating your pool with Heliocol solar panels is a sound investment in your home, health and lifestyle. Using free solar energy, Heliocol extends your swim season in Australia allowing the entire family to spend more time in the pool. Morning exercise, afternoon pool parties and even late night swims are all part of "The Heliocol Solar Pool Experience."</p>	<p>Pool Heating Pool Blankets and Rollers Solar</p>	

Tiles

Metz Tiles	Josip Pletes www.metztiles.com.au josip@metztiles.com.au Tel: 1300 730 062 Mobile: +61 (0) 418 229 262	Specialty area we have focused on for many decades are commercial pool tiling systems. Metz' ability to combine directly imported, purpose-made pool tiles from Europe with our own locally manufactured adhesive systems, and install them with our own labour force was unique back in the 1960s when we tiled our first pool. It is still unique today – there are no other companies able to offer such a single point of responsibility.	After decades of providing solutions for our clients in the most specialised areas of construction materials, early this century Metz began to offer a much broader, stunning range of architectural products. We now provide our clients with ranges that include multiple levels of slip resistance ratings, in many formats and designs.	
Ceramic Solutions	Oliver Huss 0419 397 463 oliver@ceramicsolutions.com.au https://www.ceramicsolutions.com.au/about-us	Ceramic Solutions is commenced in 1994 to provide an end to end ceramic tile service to the property industry throughout Australasia. The company's raison-d'être is to provide fit-for-purpose ceramic tiling systems to building owners and managers offering maximum material life-cycle benefits. This is achieved by working closely with architects, engineers and builders to ensure specifications, sourced materials and work practices are designed and executed with performance characteristics and longevity in mind. These tiling systems include traditional floor and wall applications and more sophisticated ceramic curtain wall and brickslip facades.	Ceramic Solutions source price appropriate products from a global network of suppliers and install these products using a tile-system solution approach that considers the end-user and the way in which the tile system will be utilised.	

Timing

AutoCoach 	Dean Sharples d.sharples@autocoach.com.au https://autocoach.com.au/	AutoCoach was started with the goal to provide Coaches, Teachers and Athletes with equipment that allowed a new way of approaching Training and Competitions. We looked at how things were traditionally practiced in the industry and took a new approach at solving some old problems. We wanted to develop a system that was integrated, expandable and updatable - and to be state of the art, yet affordable. By combining hands on feedback from leading Olympic coaches and the latest advances in wireless technology, we have evolved an intuitive system that helps the coach be more effective, makes squad and event management much easier, and does it all with a greater level of engagement.	Timing training and racing systems	
Gradient Advanced Technologies 	Chris Curran 0409374696 ccurran@gradient.com.au	Gradient Advanced Technologies provides access to the most sophisticated and accurate asset tracking technology available to show you exactly where your assets and personnel are at any given time, as well as powerful analytical tools to tell you how they got there.	Precise, handspan-accurate live tracking backed by comprehensive data recording and analytical software gives you the tools to improve safety, optimise your workflows and eliminate inefficiency, whatever your work environment.	

Wellness

Myzone

Spencer Noonan
0420 624 645
[https://www.myzone.org/
spencer.noonan@myzone.org](https://www.myzone.org/spencer.noonan@myzone.org)

Myzone is an innovative wearable heart rate based system that uses wireless and cloud technology to accurately and conveniently monitor physical activity. Myzone delivers a fully connected solution for anyone who wants an accurate (equiv. to an EKG at 99.4%), gamified and motivating wearable experience. Myzone monitors heart rate, calories and time exercising that convert into Myzone Effort Points (MEPs), with a focus on rewarding effort rather than fitness. Myzone offers a range of fitness technology products.

The Myzone app allows for engagement, motivation, and communities to flourish. With built-in challenges, personal goals, gamification, commenting and sharing workouts through social, users are motivated to sustain physical activity.

Myzone will offer a free Myzone Hub (Valued at \$715) to any facility looking to install our software*.
*Valid until June 30, 2020
*Not available to current Myzone facilities
